**STANDARD SIZE:**

Leaf thickness	45	
Leaf steel thickness	0.7 - 1.6	
Frame depth	110	
Frame steel	1.2 - 1.6	
Materials	Honey combpaper	

**STANDARD SIZE:**

Width	900, 1000, 1100, 1200
Height	2000, 2100, 2200, 2400

**CONVENTION OPENING DIRECTION**

**Soundproofing function:**

Due to using the special soundproofing materials, the door frame is fitted with soundproofing rubber gaskets so that the soundproofing function of the door is ensured and perfect.

**Heatproofing function - anti waterproof:**

Due to in the winter, the temperature get down, so to avoid water in the door and mold around the door the manufacturer applies heatproofing function and anti waterproof for the leaf door and the frame door, thereby maintaining comfortable indoor space.

**New design:**

The design uses modern and useful material, so when installed it will be very suitable for the interior of the apartment.

**The soundproof lining:**

Fastened to the door frame, it further enhances the sound insulation, smoke resistance functions.

**Embo EGI material:**

**1) General**

The galvanized steel is used by using zinc coating on the surface of cold-rolled steel sheets (CR) of galvanized steel, using the anticorrosion electrolyte currents, although less in coatings than galvanized steel, uniform coating, smooth and beautiful surface, due to not affected by the heat during the coating should maintain the durability.

**2) Features**

- In the process of plating, the crust is not shattered, so the quality does not change even when outsourcing or compressing the product.
- Steel plates are used for a variety of purposes because zinc is coated evenly in accordance with the principle of electroplating so that the surface is beautiful, and the adhesion is good.

**3) Using**

This product can be used for apartment doors and household products.

**Real Hairline:**

Due to its is color painted and thin line on the steel plate, it not only describes the appearance of stainless steel, but also has a wide variety of colors. By process Hairline, the surface of the product like stainless steel and the color of the product is very luxurious.
